NIRANJAN PATIL

+91 8767339661 | niranjanpatil4550@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Computer Science undergraduate at VJTI with a strong foundation in software engineering, backend development, databases, and machine learning. Experienced in building full-stack applications, RESTful APIs, database-driven systems, and ML pipelines using Python, C++, JavaScript, Flask, PostgreSQL, and Scikit-learn. Strong foundation in data structures, algorithms, object-oriented programming, and software development, with an interest in building reliable and scalable technology solutions.

EDUCATION

Veermata Jijabai Technological Institute (VJTI), Matunga 2024 – 2028
B.Tech in Computer Science | CGPA: 8.29 |Minor: Entrepreneurship & Startup Management

Yashwantrao Chavan College of Science, Karad 2022 – 2024
HSC (12th) | 87.83%

M.G.V., Umbraj 2021 – 2022
SSC (10th) | 97.20%

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Design and Analysis of Algorithms, Operating Systems, Software Engineering, Database Management Systems (DBMS)

SKILLS

- **Programming Languages:** C++, Python, JavaScript
- **Backend & APIs:** Flask, RESTful APIs, JWT Authentication, Role-Based Access Control (RBAC)
- **Frontend:** HTML, CSS, JavaScript
- **Databases:** SQL, PostgreSQL
- **AI/ML:** NumPy, Pandas, Scikit-learn, Exploratory Data Analysis (EDA), Feature Engineering, Data Preprocessing, Model Training and Evaluation, Hyperparameter Tuning, Natural Language Processing (NLP), Matplotlib, Seaborn
- **Tools & Platforms:** Git, GitHub, VS Code, Postman, pgAdmin, Render

PROJECTS

Next Purchase Prediction & Recommendation System **2026** | Github

- Built a two-stage ML pipeline to predict customers' next purchase category and rank relevant products.
- Engineered 28 customer, purchase-history, affinity, and session features using point-in-time feature engineering.
- Implemented PostgreSQL database for customer, product, order, session, and purchase-history data, managed and monitored through pgAdmin.
- Compared LightGBM, XGBoost, and Random Forest and implemented Optuna + LambdaRank, achieving **64.10% Top-1, 78.82% Top-3 accuracy and 72.84% .**

EduConnect — Full-Stack Community Engagement Platform **2026 |** GitHub | Live Demo

- Designed and developed a scalable full-stack platform using Flask, JavaScript, HTML, and CSS with modular architecture and role-based system for Students, NGOs, Mentors, and Administrators.
- Implemented secure authentication using JWT, bcrypt, and RBAC to enable stateless, role-isolated access control.
- Designed and integrated RESTful APIs and a normalized database to support core modules including authentication, events, scholarships, and NGO operations.
- Developed dynamic dashboards and an NGO analytics system for data visualization of user activity, engagement tracking, and resource distribution.

Net Shield — ML-Powered Cyber Threat Detection Platform **2026** | GitHub | Live Demo

- Developed and deployed an ML-powered cyber-threat analysis platform for real-time detection of phishing emails, malicious URLs, and credential security risks.
- Trained a Naïve Bayes-based NLP classifier on large-scale phishing email datasets, achieving 93% accuracy in detecting phishing emails.
- Integrated Google Safe Browsing API for malicious URL screening and Have I Been Pwned API for credential-breach analysis to identify compromised credentials and account risks.
- Implemented image-based phishing detection using OpenCV and developed a browser extension for real-time threat monitoring and security analysis.

ACHIEVEMENTS & CERTIFICATIONS

- **Hacktoberfest 2025 | Super Contributor** : Recognized for 6+ accepted open-source pull requests through GitHub contributions
- **Google Cloud Skills Boost – Silver League (2026) | Profile Link** :Earned multiple Google Cloud skill badges in Generative AI
- **Google AI Essentials – IICT (2026) |Google Prompting Essentials – IICT (2026) |Certiport – Generative AI Foundations (2026) |Profile Link**
- **Udemy – Data Science, Machine Learning, Deep Learning & NLP Bootcamp (2026)**.
